SAFETY DATA SHEET
Emulex 2, Emulex 2 plus, Emulex 5

according to Regulation (EC) No 1907/2006 (REACH)

Print date: 27.09.2018
Revision date: 11.08.2017
Page 1/8

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
   Trade name: Emulex 2, Emulex 2 plus, Emulex 5

1.2 Relevant identified uses of the substance or mixture and uses advised against
   No further relevant information available.

1.3 Details of the supplier of the safety data sheet
   Manufacturer/Supplier:
   E-Mail: sdb@austinpowder.at
   Information Department:
   AUSTIN POWDER GmbH, (Mon. – Fr. 6 – 13): +43(0)3585-2251
   E-Mail: sdb@austinpowder.at

1.4 Emergency telephone number: Poison Control Center: +43 (01) 406 43 43

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
   Classification according to Regulation (EC) No 1272/2008:
   Expl. 1.1    H201    Explosive; mass explosion hazard.
   Ox. Sol. 2   H272    May intensify fire; oxidizer.
   Skin Irrit. 2 H315    Causes skin irritation.
   Eye Irrit. 2  H319    Causes serious eye irritation.

   Information concerning particular hazards for human and environment:
The product has to be labelled due to the calculation procedure of the "General Classification guideline for
preparations of the EU" in the latest valid version.

   Classification system:
The classification was made according to the latest editions of the EU-lists, and expanded upon from company
and literature data.

2.2 Label elements
   Labelling according to Regulation (EC) No 1272/2008:
The product is classified and labelled according to the CLP regulation. In terms of labelling the derogation according
to Art. 23e in conjunction with Appendix I, section 1.3.5 und 2.1 is claimed.

Hazard pictograms:

GHS01

Signal word: Danger.

Hazard statements:
H201 Explosive; mass explosion hazard.

Precautionary statements:
P224    Take any precaution to avoid mixing with combustibles.
P210    Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P250    Do not subject to grinding/shock/ Friction.
P280    Wear protective gloves/protective clothing/eye protection/face protection.

(Contd. on page 2)
Emulex 2, Emulex 2 plus, Emulex 5

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P373  DO NOT fight fire with water. Use foam, dry powder, nitrogen.
P370+P380  In case of fire: Evacuate area.
P312  Call a POISON CENTER/doctor if you feel unwell.
P372  Explosion risk in case of fire.
P302+P352  IF ON SKIN: Wash with plenty of water.
P401  Store in accordance with local/ regional/ national/international regulations.
P501  Dispose of contents/container in accordance with local/ regional/ national/international regulations.

2.3 Other hazards
- Results of PBT and vPvB assessment:
  - PBT: Not applicable.
  - vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.2 Chemical characterisation: Mixtures
Description: Mixture of the substances listed below with nonhazardous additions.

<table>

</tbody>
</table>

Additional information For the wording of the listed risk phrases refer to section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures
- General information: Immediately remove any clothing soiled by the product.
- Personal protection for the First Aider.
- Take affected persons out of danger area and lay down.
- After inhalation: Take affected persons into fresh air and keep quiet. Seek immediate medical advice. In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

(Contd. on page 3)
· After swallowing: Rinse out mouth, seek medical treatment. Call for a doctor immediately.

· 4.2 Most important symptoms and effects, both acute and delayed
  Symptoms of poisoning may even occur after several hours, therefore medical observation for at least 48 hours after the accident.
  Symptoms include methemoglobin formation through NO contact, pulmonary edema with a latency up to 48 hours.
  In men with frequent inhalation: erectile dysfunction to impotency.
  Information for doctor: Particularly for the prevention of pulmonary edema cortisol must be administered by inhalation (depending on the type of drug 5-10 inhalations).
  Medical supervision of the patient at least for 72-96 hours.

4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media
· Suitable extinguishing agents: Explosive material, no fire-fighting!

· 5.2 Special hazards arising from the substance or mixture
  During heating or in case of fire poisonous gases are produced.
  Nitrogen oxides (NOx),
  Carbon monoxide (CO),
  Ammonia (NH3)-fumes.
  If product is directly involved in the fire:
  Explosion hazard - no fire-fighting. Warn and evacuate the area. At least 300 m away for cover.
  If product is not directly involved in the fire:
  The fire from spreading to the product must avoid If possible remove product from the danger zone.

· 5.3 Advice for firefighters
· Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit.
· Additional information: Collect contaminated fire fighting water separately. It must not enter the sewage system. Announcing risk of explosion!

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures
  Keep away from ignition sources.
  All persons whose presence is not necessary to remove from the affected area.
  Avoid contact with skin, clothes and eyes.
  Wear protective equipment.
  Avoid shock or friction.

· 6.2 Environmental precautions
  Do not allow to reach sewage system or any water course.
  Inform respective authorities in case of seepage into water course or sewage system.
  In case of seepage into the ground inform responsible authorities.

· 6.3 Methods and material for containment and cleaning up
  Pick up mechanically.
  Ensure adequate ventilation.
  Announcing risk of explosion!

· 6.4 Reference to other sections
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.
SECTION 7: Handling and storage

7.1 Precautions for safe handling
• Handle with care. Avoid jolting, friction and impact. Keep receptacles tightly sealed.
• Keep away from heat and direct sunlight.
• Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of dust.

7.2 Conditions for safe storage, including any incompatibilities
• Storage
• Requirements to be met by storerooms and receptacles: For storage is required a national permit.
• Information about storage in one common storage facility:
  • Store away from oxidising agents.
  • Store away from reducing agents.
  • Store separately from oxidizing and spontaneously flammable substances.
• Further information about storage conditions:
  • Store receptacle in a well ventilated area. Keep receptacle tightly sealed.
  • Protect from heat and direct sunlight.
• Recommended storage temperature: Do not store below 5 °C or above 30 °C.

7.3 Specific end use(s)
• No further relevant information available.

SECTION 8: Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

8.1 Control parameters

• Components with limit values that require monitoring at the workplace:

<table>
<thead>
<tr>
<th>Component</th>
<th>Limit Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>7429-90-5 aluminium powder (pyrophoric) (2.5-10%)</td>
<td>Long-term value: 10^-4* mg/m³</td>
</tr>
<tr>
<td></td>
<td>*inhaleable dust **respirable dust</td>
</tr>
</tbody>
</table>

• Additional information: The lists that were valid during the creation were used as basis.

8.2 Exposure controls
• Personal protective equipment
• General protective and hygienic measures
  • The usual precautionary measures should be adhered to when handling chemicals.
  • Keep away from foodstuffs, beverages and feed.
  • Immediately remove all soiled and contaminated clothing.
  • Wash hands before breaks and at the end of work.
  • Avoid contact with the eyes and skin.
• Breathing equipment: Not necessary if room is well-ventilated.
• Protection of hands:
  • Protective gloves.
  • The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  • Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. None required during handling of packaged products, in the cases of direct contact with the explosive mass.
  • Gloves:
• Material of gloves
  • Nitrile rubber, NBR
  • Neoprene gloves
  • The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.
• Penetration time of glove material
  • The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
Emulex 2, Emulex 2 plus, Emulex 5

- Eye protection: Safety glasses.
- Body protection: Protective work clothing.

SECTION 9: Physical and chemical properties

SECTION 10: Stability and reactivity

| 10.1 Reactivity                                          |
| Risk of explosion by shock, friction, fire or other      |
| sources of ignition.                                     |
| 10.2 Chemical stability                                  |
| The product is chemically stable under the recommended   |
| conditions of use.                                      |
| Conditions to avoid:                                    |
| Avoid: heat, flames, sparks.                            |
| Shock, friction (explosive hazard)                       |
| 10.3 Possibility of hazardous reactions                 |
| Thermal decomposition begins at 170 °C;                 |
| 10.5 Incompatible materials                             |
| Acids                                                    |
| alkali (lyes)                                           |
| Avoid contaminations with other chemical/substances,     |
| especially chlorid-containing compounds, copper, brass   |
| i.a. copper-alloy, chromate and zinc.                    |
| 10.6 Hazardous decomposition products                    |
| Nitrogen oxides (NO₃)                                   |
| Carbon monoxide and carbon dioxide                       |
| Ammonia                                                  |

SECTION 11: Toxicological information

| 11.1 Information on toxicological effects                 |
| Acute toxicity:                                          |
| Primary irritant effect:                                 |
| on the skin: Irritant to skin and mucous membranes.      |
| on the eye: Irritating effect.                           |
| Sensitisation: No sensitising effects known.             |
***Emulex 2, Emulex 2 plus, Emulex 5***

- **Additional toxicological information:** The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
  Harmful
  Irritant

**SECTION 12: Ecological information**

- **12.1 Toxicity**
  Aquatic toxicity: No further relevant information available.

- **12.2 Persistence and degradability**
  Easily biodegradable

- **12.3 Bioaccumulative potential**
  No further relevant information available.

- **12.4 Mobility in soil**
  No further relevant information available.

- **Ecotoxicological effects:**
  - **Type of test Effective concentration Method Assessment:**
    Ammonium nitrate, CAS 6484-52-2
    to aquatic organisms: LD50/96 h 10 - 100 ppm
    for fish 800 mg / L lethal in 3.9 hours
    Sodium nitrate; 7631-99-4
    Toxicity to fish LC50> 1000 mg / L 96 h
    Daphnia LC50> 1000 mg / L 24 h

- **Additional ecological information:**
  - **General notes:**
    Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.
    Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- **12.5 Results of PBT and vPvB assessment**
  - **PBT:** Not applicable.
  - **vPvB:** Not applicable.

- **12.6 Other adverse effects**
  No further relevant information available.

**SECTION 13: Disposal considerations**

- **13.1 Waste treatment methods**
  - **Recommendation:**
    Must be specially treated adhering to official regulations.
    Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- **European waste catalogue:**
  The disposal codes of the European list of wastes depend on the country of origin of the waste. This product has got identified uses in a various industries. This is, why a definite disposal code cannot be stated. The disposal code should be selected in agreement with disposer and/or the competent Authority.

- **Uncleaned packagings:**
  - **Recommendation:** Disposal must be made according to official regulations.
SECTION 14: Transport information

- 14.1 UN-Number
  ADR, IMDG
  UN 0241

- 14.2 UN proper shipping name
  ADR
  UN 0241 EXPLOSIVE, TYP E

- 14.3 Transport hazard class(es)
  ADR, IMDG, IATA

  - Class
    - Label
    1 Explosive substances and articles.
    1

- 14.4 Packing group
  ADR, IMDG
  Void

- 14.5 Environmental hazards:
  Marine pollutant:
  No

- 14.6 Special precautions for user
  EMS Number:
  Warning: Explosive substances and articles.
  F-B-S-X

- 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
  Not applicable.

Transport/Additional information:

- ADR
- Tunnel restriction code
  B1000C

- IATA
  Remarks:
  Air transport ICAO-IATA/DGR
  Prohibited

- UN "Model Regulation":
  UN0241 EXPLOSIVE, TYP E, 1.1D

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
  National regulations

- Water hazard class: Water hazard class 1 (Self-assessment): slightly hazardous for water.
- 15.2 Chemical safety assessment
  A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Liability about information is not warranted although information is given to our best knowledge.

- Relevant phrases
  H250 Catches fire spontaneously if exposed to air.
  H261 In contact with water releases flammable gases.
  H272 May intensify fire; oxidiser.
  H302 Harmful if swallowed.
  H315 Causes skin irritation.
  H319 Causes serious eye irritation.
  H335 May cause respiratory irritation.
  R15 Contact with water liberates extremely flammable gases.
  R17 Spontaneously flammable in air.
  R22 Harmful if swallowed.
  R36 Irritating to eyes.
  R36/37/38 Irritating to eyes, respiratory system and skin.
  R8 Contact with combustible material may cause fire.
  R9 Explosive when mixed with combustible material.
Emulex 2, Emulex 2 plus, Emulex 5

- Department issuing MSDS: Labor Austin Powder
- Abbreviations and acronyms:
  - RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail)
  - ICAO: International Civil Aviation Organisation
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - IATA: International Air Transport Association
  - GHS: Globally Harmonised System of Classification and Labelling of Chemicals
  - EINECS: European Inventory of Existing Commercial Chemical Substances
  - ELINCS: European List of Notified Chemical Substances
  - CAS: Chemical Abstracts Service (division of the American Chemical Society)
  - Expl. 1.1: Explosives, Division 1.1
  - Pyr. Sol. 1: Pyrophoric Solids, Hazard Category 1
  - Water-react. 2: Substances and Mixtures which, in contact with water, emit flammable gases, Hazard Category 2
  - Ox. Sol. 2: Oxidising Solids, Hazard Category 2
  - Acute Tox. 4: Acute toxicity, Hazard Category 4
  - Skin Irrit. 2: Skin corrosion/irritation, Hazard Category 2
  - Eye Irrit. 2: Serious eye damage/eye irritation, Hazard Category 2
  - STOT SE 3: Specific target organ toxicity - Single exposure, Hazard Category 3
- * Data compared to the previous version altered.
