

PRODUCT INFORMATION

BROCHURE

E★STAR LOGGER 2

The **E★STAR Logger 2** provides improved programming and verification features and integrated E★STAR leakage tester, as well as new communication via Bluetooth and RFID. A GPS module allows logged detonator positions to be saved in the Logger 2 memory. The new color display enables more data on one screen, and works in cold temperatures with no screen delay. The Logger 2 body is ergonomically shaped, suited for left or right hand use, and is equipped with a hand strap for a secure grip. It is impact resistant and meets IP 67 requirements.

PRODUCT OVERVIEW

ADVANTAGES

- Physical programming or RFID tagging
- Easy to use.
- Large buttons suitable for use with gloves.
- Intrinsically safe.
- Water resistant.
- Suitable for winter conditions.
- Incorporates E★STAR leakage measuring during programming.
- Automatic leakage measuring during verification
- High leakage tolerance.
- GPS module for recording position of all logged detonators.

STANDARD TECHNICAL DESCRIPTION

Name	E★STAR Logger 2 / DLG2B-100-G1R1
Weight	2 lbs (900 g)
Size	8.66 x 4.33 x 1.57 in (220 x 110 x 40 mm)
Case	ABS plastic
Battery	Li-Po 5000 mAh, 6.38 oz (180 g), not replaceable
Charging	Mains charger (100 – 240 V; 50 – 60 Hz) Car charger (11 – 16 V system)
Operation voltage	7.5 V
Operation current	50 mA (programming), 150 mA (verification)
Temperature range for application	From -22°F to 140°F (-30°C to +60°C)
Storage condition	From 32°F to 104°F (0°C to +40°C) R.H. max. 80%
Operation time	10 hours
Firing capabilities	Maximum 1,600 detonators in one logger Maximum 100 detonators in one branch Maximum 99 branches in one logger
