Section 1: Identification

Product Identifier: Shockstar™ Shock Tubing
Intended Use: As part of a commercial explosives device initiation system
Intended Users: For use only under strictly controlled conditions and only by qualified personnel who are fully trained in the handling and use of this product.

Name, Address, and Telephone of the Responsible Party:

Austin Powder Company
25800 Science Park Dr.
Cleveland, OH  44122

</tr>
</thead>
<tbody>
<tr>
<td>H204</td>
<td>Explosives</td>
<td>Division 1.4</td>
</tr>
</tbody>
</table>

Label Elements

Warning

Hazard Statements

Fire or projection hazard

Precautionary Statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Do not subject to grinding, friction, impact or shock.
Do not eat, drink or smoke when using this product.
Wear eye protection.
In case of fire: Evacuate area. Explosion risk in case of fire.
Store locked-up in a ventilated space, in accordance with all applicable regulations.
Dispose of contents/container in accordance with all applicable regulations.

Other Hazards: None expected

Unknown Acute Toxicity: Not available
SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

The hazardous substances are sealed inside a plastic tube. The values in column 3 are shown as a percent of the total weight of tube. The tube length may vary depending on the specific product.

SECTION 4: FIRST AID MEASURES

General: Never give anything by mouth to an unconscious person. If you feel unwell, get medical attention, show the label where possible.

Inhalation: Not an expected route of exposure.

Skin Contact: Not an expected route of exposure.

Eye Contact: Not an expected route of exposure.

Ingestion: Not an expected route of exposure.

Most Important Symptoms and Effects both Acute and Delayed:

Inhalation: Not an expected route of exposure.

Skin Contact: Not an expected route of exposure.

Eye Contact: Not an expected route of exposure.

Ingestion: Not an expected route of exposure.

SECTION 5: FIRE FIGHTING MEASURES

**DO NOT fight fires involving Explosives.** There is an extreme risk that explosives involved in a fire may detonate, especially if confined. Evacuate the area in all directions for one (1) mile or more if any amount of explosives is involved in a fire. Evacuation is recommended if the initial (incipient) fire, not involving explosives, becomes intense. General extinguishers may be used on the initial fire not involving explosives, such as electrical equipment fires, tire fires or a general plant fire. Water may be used to cool explosives not involved in the initial fire. Consult the most current Emergency Response Guidebook (ERG), Guide 112 for additional information.

Extinguishing Media

**Suitable Extinguishing Media:** None.

**Unsuitable Extinguishing Media:** For fires near explosives, dry chemical, foams, steam and smothering devices are not effective, can lead to possible explosion and must not be used.
Special Hazards Arising from the Item ("Article"):

**Fire Hazard:** There is an extreme risk that explosives involved in a fire may detonate.

**Advice for Firefighters**

**Precautionary Measures:** It is recommended that the amount and location of any explosives stored near a fire be determined prior to committing firefighters to fight the fire.

**Firefighting Instructions:** When fighting the initial fire, not involving explosives, firefighters should follow standard firefighting procedures for the materials involved.

**Hazardous Combustion Products:** No unusual combustion products are expected. However, toxic fumes will be present.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment and Emergency Procedures**

**General Measures:** Contact the manufacturer or CHEMTREC. No smoking, open flames or flame/spark producing items in the area.

**For Non-Emergency Personnel**

**Protective Equipment:** Use appropriate personal protection equipment (PPE).

**Emergency Procedures:** Isolate the area from unnecessary personnel.

**For Emergency Personnel**

**Protective Equipment:** Provide cleanup crew with proper PPE.

**Emergency Precautions:** Avoid release to the environment.

**Methods and Material for Containment and Cleaning Up** Pick up containers or units by hand. Contact manufacturer or CHEMTREC.

### SECTION 7: HANDLING AND STORAGE

**Precautions for Safe Handling**

**Additional Hazards when Processed:** Avoid heating explosives in a confined space. Any proposed use of this product in elevated temperature processes should be thoroughly evaluated to assure that safe operating conditions are established and maintained. A "hot work" program consistent with OSHA requirements at 29 CFR 1910.252 must be used when performing hot work on explosive process equipment, storage areas or containers related to the intended use.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures.
Shockstar Shock Tubing (SDS: P-15) Safety Data Sheet

Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures: Smoking, open flames, and unauthorized sparking or flame-producing devices are prohibited.

Storage Conditions: Storage areas should be inspected regularly by an individual trained to identify potential hazards and ensure that all safety and security control measures are being properly implemented. All explosives storage sites must comply with ATF, OSHA or NRCAN regulations.

Incompatible Materials: Strong acids, strong bases and organic solvents.

Special Rules on Packaging: Packaging in accordance with USDOT or NRCAN regulations.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits: Not applicable, sealed item

Exposure Controls:

Appropriate Engineering Controls: Product should be handled and used under strictly controlled conditions.

Personal Protective Equipment:

Hand Protection: Not required.

Eye Protection: Safety glasses.

Respiratory Protection: Not required.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on Physical and Chemical Properties:

Appearance: Flexible ionomer resin plastic tubing with minute amount of very fine silver colored powder on interior tube wall

Odor: None

Odor threshold: Not relevant

Vapor density: Not relevant

pH: Not relevant

Melting point: Not relevant

Initial boiling point and boiling range: Not relevant

Flash point (oil): Not relevant

Evaporation rate: Not relevant

Flammability: Not relevant

Upper / lower flammability or explosive limits: Not relevant

Vapor pressure: Not relevant

Density: Not relevant

Solubility: Not soluble in water

Partition coefficient: n-octol/water: Not relevant

Auto-ignition temperature: Not relevant

Decomposition temperature): Not relevant

Viscosity: Not relevant

Explosive properties: Mass detonation hazard when involved in a fire

Explosion Data – Sensitivity to Mechanical Impact: Sensitive to mechanical impact

Explosion Data – Sensitivity to Static Discharge: Sensitive to static discharge
SECTION 10: STABILITY AND REACTIVITY

Reactivity and Chemical Stability: Stable and non-reactive under normal conditions of transportation, storage, handling and use.

Possibility of Hazardous Reactions: Polymerization will not occur.

Conditions to Avoid: Open flame and elevated temperatures.

Incompatible Materials: Strong acids, strong bases and organic solvents.

Hazardous Combustion Products: No unusual combustion products are expected. However, toxic fumes will be present.

SECTION 11: TOXICOLOGY INFORMATION

Acute Toxicity: Not classified

LD50 and LC50 Data: Not classified

Skin Corrosion/Irritation: Not classified

Eye Damage/Irritation: Not classified

Respiratory or Skin Sensitization: Not classified

Germ Cell Mutagenicity: Not classified

Teratogenicity: Not available

Carcinogenicity: Not classified

Reproductive Toxicity: Not classified

Specific Target Organ Toxicity (Single Exposure): None

Specific Target Organ Toxicity (Repeated Exposure): None

Aspiration Hazard: Not classified

Symptoms/Injuries after Inhalation: Not expected to be a hazard under normal conditions of use.

Symptoms/Injuries after Skin Contact: Not expected to be a hazard under normal conditions of use.

Symptoms/Injuries after Eye Contact: Not expected to be a hazard under normal conditions of use.

Symptoms/Injuries after Ingestion: Not expected to be a hazard under normal conditions of use.

Chronic Symptoms: None
SECTION 12: ECOLOGY INFORMATION

Not available

SECTION 13: DISPOSAL CONSIDERATIONS

Call manufacturer or CHEMTREC.

SECTION 14: TRANSPORTATION INFORMATION
