

ShockStar Surface Connector

(NON ELECTRIC DETONATOR)
TECHNICAL INFORMATION BROCHURE

ShockStar Surface Connector is designed for delay hole to hole, in combination with Schockstar MS/TS, it has capacity for connect 8 shock tubes, and these detonators are available from 0 ms to 200 ms,

Designing a blasting for use of Shockstar Surface Connector, can achieve lows noise leves that is special for control blasting.

ShockStar Surface Connector enable connections easier and fast, due a less quantity of connections, also facilitates inspections. Surface connector aren't designed for initiation of detonating cord.

BENEFITS

- Manufactured with bright (red or yellow) shock tube for enable a simple visual differentiation respect to the borehole internal detonators at the inspection moment.
- Connector has 8 shock tube capacity
- Colour coded to surface delay time.
- Label that shows delay and length
- External energy sources resistant
- Base charge protected

PROPERTIES

AUSTIN POWDER

Austin Powder Argentina S.A. Lola Mora 421 Piso 5 Of 503, C1107DDA CABA, Argentina

ShockStar Surface Connector

(NON ELECTRIC DETONATOR)
TECHNICAL INFORMATION BROCHURE

PACKAGING

Length (m)	Units / box
4,2	100
6,0 - 9,0	75
15	50

If the customer requires it can be manufactured in other lengths

STORAGE

Shockstar Surface Connector must be stored in magazines for detonators. Detonators are incompatibles with high explosives (watergels, packaged emulsions, booster, etc.) and blasting agents (ANFO). These magazines must accomplish the current legal requirements.

USE

- Open pit mining
- Underground mining
- Quarries
- Civil projects

SHELF LIFE

Two years from date of manufacture under good storage conditions

DISPOSSAL

According to local regulations. If in doubt consult the supplier

TRANSPORT INFORMATION

Non Electric Detonator
Class and Division: 1.1B
UN Number: 0360

Contact your local Austin Powder representative for further information.
